Namma Shipping Assists with Sudan Evacuations

The Saudi government has contracted Namma International Marine Services (Namma) to assist with its efforts to evacuate civilians from the deadly conflict in Sudan. Namma has employed its Amanah ferry boat, capable of transporting up to 2000 people per voyage and has coordinated with all relevant embassies to facilitate evacuations of their citizens. So far, Namma has brought nearly 1700 evacuees, citizens of Saudi Arabia and 61 other countries across the Middle East, Africa, Europe, Asia and the Americas, to the port in Jeddah. The evacuations are continuing during the fragile ceasefire brokered by Saudi and American diplomats. Upon arrival in Jeddah, the Saudi government provides for the evacuees' immediate needs and offers assistance so that they can safely continue their journeys to their home countries.

شهادات حصرية للحدث للقادمين من السودان لجدة على متن السفينة أمانة

اللحظات الأولى لاستقبال السعودية لسفينة "أمانة" القادمة من السودان

“ We are honored that the Saudi government has entrusted Namma International Marine Services to be part of one of its largest evacuation plans ever as it brings evacuees from Sudan to Saudi Arabia”.

*Majdi A.Hadi Sabir, Marketing Manager

Nesma Infrastructure & Technology Transmission Project

Nesma Infrastructure & Technology (NIT) has been awarded a contract by National Grid to construct a 115kV overhead transmission line between Ain Dar and Abqaiq, more than 40 kilometers. The SAR 68 million project will be completed in three phases and will include the construction of 125 towers. The project is expected to take 25 months to complete.

The construction of the transmission line is an important project that will provide a reliable connection between Ain Dar and Abqaiq, improving the overall efficiency of the electricity transmission network in the region and providing a reliable supply to customers.

CEO Salah Al-Sunaid

“ NIT is pleased to have been entrusted by National Grid with this significant project and is committed to completing it to the highest standards of quality and efficiency, on time and within budget ”.

BASISTEK's New Partnership

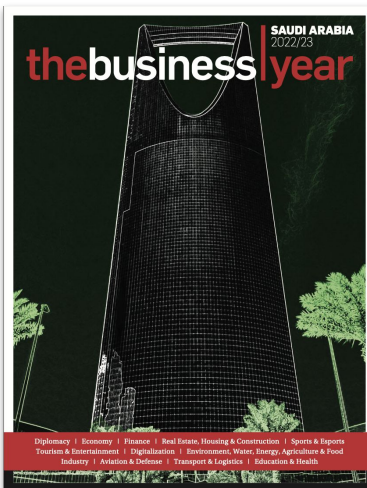

Nesma company, BASISTEK Information Technologies, along with İşNet and BMC Software, have joined forces to create innovative information solutions for their customers. BMC Software solutions and products will be presented through the İşNet cloud platform using BASISTEK expertise and consultancy allowing these products to be offered for the first time within Turkey as an SaaS (software as a service) solution on a widespread platform. This strategy will allow institutions to easily manage their IT services more accurately and efficiently through a monthly subscription with no initial investment cost.

The signing ceremony was held March 24th at İşNet headquarters. You can read more details [at this link](#).

“It is very important in terms of providing proactive IT efficiency to align the product-platform-consulting triangle. This agreement will bring agility and cost advantages to customers throughout the region.”
General Manager Mehmet Ali Ceylan

Nesma Water & Energy Featured in The Business Year

The Business Year focused on Saudi Arabia 2022-2023 and what's driving its economic growth by conducting interviews with leaders in government and key business sectors including an interview with Nesma Water & Energy CEO Mahmoud Y. Fallatah. The interview focused on NW&E's expertise and leadership in public private partnerships in the Kingdom along with its large construction and O&M projects throughout the Kingdom and in Bahrain. CEO Fallatah also noted that NW&E's work advances the objectives of Vision 2030 to enhance efficiency and spur growth in the Kingdom.
